Informational Brochure

Household Hazardous Waste

Household Hazardous waste is characterized by being either Ignitable, Corrosive, Reactive, or Toxic. This includes fluorescent lights, CFLs, thermometers and other items that contain mercury. These items are accepted, free of charge, at the Household Hazardous Waste (HHW) Facility during normal business hours. No explosives, Radioactive or Biological Hazards will be accepted.

RESIDENTIAL HHW ONLY

Acceptable limits of HHW, listed per household, per day is; 100 Pounds of dry goods, or 5 gallons of liquid.

**NO BUSINESS OR
COMMERCIAL
HAZARDOUS WASTE
ACCEPTED**

End of Life Electronic Recycling Program

End of Life Electronic Recycling Program is for all residents and businesses located within St. Lucie County. This program was established to recycle all electronic products such as: computers, computer equipment and peripherals, monitors, televisions, radios, telephones, etc. To recycle any of these items they must be dropped off at the Household Hazardous Waste Facility located at the Baling and Recycling Facility.

Fluorescent Bulb Recycling

Fluorescent bulb recycling program is available for all businesses and costs only 20 cents per bulb! So far the County has recycled over 125,000 bulbs which equals over 2,471,794 milligrams of Mercury!

For more detailed information on items included in this brochure please visit our web site:
www.stlucieco.org/solid-waste

Recycling

St. Lucie County provides curbside recycling for all single family homes in the urban service area. Items accepted at this facility include: glass bottles and jars, aluminum cans, steel cans, drink boxes, milk and juice cartons, rigid plastic containers (#1 thru #7), newspapers and inserts, phone books, magazines, catalogs, paperboard boxes, cardboard boxes, and brown grocery bags.

If you want to recycle and need bins, or if you live in multi-family dwellings, apartment, condos, duplexes or are a business please contact **Waste-Pro at (772) 595-9390.**
